Main Survey Objectives

- To determine the main challenges facing Jamaica’s Small & Medium Size Enterprises (SMEs).
- To better understand why individuals choose entrepreneurship.
- To determine the distribution of SMEs who are using Social Media in their businesses and types of social media being used.
- To better understand the demographics of Jamaica’s rising entrepreneurs (age, sex, education level etc.)
The data for this survey was collected over a three day period, from June 21$^{st}$ to 23$^{rd}$, 2013. Over 130 operators of Small & Medium Size Enterprises (SMEs) were in attendance at the NCB/IDB SME Conference, which was held at the Hilton Rose Hall Resort.

A census was done of all SMEs who attended the Conference and of the approximately 130 business operators in attendance, we were able to collect 87 completed questionnaires.
Who are Jamaica’s rising SMEs?
The proportion of male to female entrepreneurs was approximately equal. Male entrepreneurs slightly outnumbered their female counterparts (53 % to 47 %).
Entrepreneurs were almost equally distributed across the various age groupings.

The smallest proportion of entrepreneurs were at both extremes – those between “19 - 24 yrs.” & those “60 yrs. and over”

Entrepreneurs between “35 to 39 yrs.” and “45 to 49 yrs.” represented the highest proportion of SMEs.
The majority of Jamaica’s rising SME Entrepreneurs are well educated, i.e. they had either a diploma (17%), first degree (40%) or master’s degree (23%).

Almost two out of every ten entrepreneur had a master’s degree.
Participation in any form of Incubator or Small Business Associations were fairly small, 76% of the entrepreneurs did not participate in same.

Only around two in every ten entrepreneur (24%) had participated in a business incubator or Small Business Association.
Most SMEs have been in operation for 9 years and over (39%).

Approximately two in every ten SMEs (22%) were in operation for between “1 - 2 years”, “3 - 5 years” (21%) and “6 - 8 years” (18%) respectively.
Why individuals choose entrepreneurship?
The two main impetus entrepreneurs identified as reasons for starting their own company were: “personal goal to own a company”; while others “saw a market opportunity” they could capitalize on.

Around two in every ten entrepreneur identified “the freedom owning a business allows” as their main reason for starting their company.
What level of support does Jamaican entrepreneurs receive from family, friends & colleagues?
The majority of business owners rated the level of support they’ve received from families/ friends/ colleagues as falling between high to average levels (47% & 45% respectively).

Only about one in every ten entrepreneur rated the level of support received from family/ friends/ colleagues as “low level”.
